## THE SCREENING LAB

On Tour February 6th - March 19th

AMC is taking Breaking Bad on the ultimate road trip in our custom Screening Lab.

The Screening Lab is a 53-foot, bio-diesel fueled trailer that has been customized to create an intimate and mobile, high-def screening room. The theater features compelling and cinema quality imagery and Dolby surround sound, all within a plush stadium-style seating screening room for 90 people.

Inside, the seven-minute video experience will immerse you in the world of Walter White (Bryan Cranston) and lead you into the third season where the stakes get even higher. In addition, you can visit the Booking Station for your free mug shot and enter for your chance to win SONY electronics and Breaking Bad DVDs, or the grand prize of a 55" Sony Bravia V HDTV.

Join us for a riveting Breaking Bad experience when we roll into your town!
